

This Playground is Safe, is Your's?

"We Install Playground Safety Borders!"

Soft One- Certified
Engineered Wood Fiber Products
Cushion the fall with Yard Works Soft
One Safety Surfacing. Each year, more
than 200,000* children go to U.S.
hospital emergency rooms with injuries
associated with playground equipment.

Most injuries occur when a child falls from the equipment onto the ground. Many injuries can be prevented by protective under equipment. Soft One Safety Surfacing can help protect children from injury while enhancing the appearance of the playground.

Available in Virginia Wood

Reduce Impact of fall-Soft One meets the American Standards for Testing and Material (ASTM) Specification for Impact Attenuation Wheelchair Accessible as required by the ADA.

Soft One Virgin (Its All Natural)

Environmentally Friendly -Soft One Recycled Is an Engineered Wood Fiber Product.

Non-Certified Play Ground Chips

Yard Works now offers non-certified Playground chips. These are a dust free wood chips which are uniform in size and when installed at the suggested depth adds a shock-absorbing surface which will help reduce injury on the playground.

Use this simple checklist developed by the Consumer Products Commission, to help make sure your local community or school playground is a safe place to play.

1. Make sure surfaces around playground equipment have at least 12 inches of mulch, woodchips, sand, or pea gravel, or are mats made of safety-tested rubber or rubber-like materials.
2. Check that protective surfacing extends at least 6 feet in all directions from play equipment. For swings, be sure surfacing extends, in back and front, twice the height of the suspending bar.
3. Make sure play structures more than 30 inches high are spaced at least 9 feet apart.
4. Check for dangerous hardware, like open "S" hooks or protruding bolt ends.
5. Make sure spaces that could trap children, such as openings in guardrails or between ladder rungs, measure less than 3.5 inches or more than 9 inches.
6. Check for sharp points or edges in equipment.
7. Look out for tripping hazards, like platforms and ramps, have guardrails to prevent falls.
8. Check playground regularly to see that equipment and surfacing are in good condition.
9. Carefully supervise children on playgrounds to make sure they're safe.

These Recommendations from :
The Playground Safety Commission Board

Yardworks can install all the playground mulches we sell quickly and professionally with no additional equipment on site. Don't be caught out of compliance. Let our professional staff estimate your playground needs free of charge and keep your playground a safe place to play.
